Subject Index

Volume 24

A

Active learning strategies, to teach case management, 5:52
Advanced practice nurses, clinical learning for, in managed care environments, 4:15
Aging, simulated sensory deprivation experience for awareness of, 3:5
Alternative therapies, model for identifying and evaluating patients using, 6:19
Ambulatory care nursing courses, 4:45
American Red Cross, clinical instruction in pediatrics for associate degree students and, 6:37
Anecdotal record keeping, 6:15
Anxiety, drug dosage calculations and, 4:36
Associate degree programs
  care plans for students in, 4:10
  clinical instruction in pediatrics for, 6:37
  closure of, 2:20
  continuity of clinical instruction in, effect on freshman nursing students, 4:6
  strategy for pediatric community health nursing for, 1:16
Attitudes, of baccalaureate students toward profession, changing, 4:8
Authors, information for, 1:4, 3:4, 4:3, 5:59, 6:3

B

Baccalaureate education
  changing attitudes of students toward profession and, 4:8
  evaluation of physical examination performance and, 2:4
  integrating patterns of knowing into courses and, 4:26
  precepted experience for senior nursing students and, 3:13
  predictors of successful completion of, 6:33
  role conception of students in, 4:9
  small-group instructional diagnosis and collaborative conflict resolution to facilitate course changes and, 3:17
Baccalaureate program, abilities-based, spelling competence in, 3:5
Beginning students
  clinical leadership for, 4:7
  creative strategies for generating interest in nursing as major among, 1:25
  faculty teaching, 4:4
Benchmarking practices, for learning resource center, 4:16

C

Care plans, for students, 4:10
Case management, active learning strategies to teach, 5:52
Case studies, for clinical instruction in problem-solving, 5:42
CD-ROM technology, to enhance clinical nursing education, 1:20
Clinical instruction
  for advanced practice nurses in managed care environments, 4:15
  for associate degree students in pediatrics, 6:37
  CD-ROM technology to enhance, 1:20
  clinical simulation laboratory as adjunct to, 5:37
  continuity of, effect on freshman nursing students, 4:6
  independent clinical experiences in mental health nursing and, 3:8
  nursing education and cognitive apprenticeship and, 4:31
  perceptions of leadership competence between interns and mentors in cooperative nurse internship and, 4:21
  in problem-solving, case studies for, 5:42
  promoting positive clinical experiences, 3:44
  student evaluation and, 6:15
  students' decisions to select HIV services for, 3:35
Clinical practice
  integrating with teaching and research, in nurse–managed clinic, 3:25
  preparation for, 4:5
Clinical reasoning, strengthening in graduate nursing students, 2:11
Cognitive apprenticeship model, 4:31
Communication, about human sexuality, teaching to nurses and other healthcare providers, 5:27
Community, as client, 6:4
Community-based education, 5:16
Community-based nursing
  assessing students' perceived threats to safety and, 1:31
  population-based clinical projects and, 6:28
Community health nursing
  pediatric, unique strategy for associate degree students, 1:16
  strategies in migrant farm community, 1:23
Completion test items, 6:6
Conflict resolution, collaborative, to facilitate course changes, 3:17
Course changes, small-group instructional diagnosis and collaborative conflict resolution to facilitate, 3:17
Critical care
  cultural competence case scenarios for nursing education in, 5:47
  stressor identification exercise for, 2:6
Critical thinking
  of nontraditional and traditional nursing students, differences in, 6:38
  in pathophysiology course, 3:7
  teaching through health-promotion contract, 4:42
  teaching with exercise using role playing, 6:11
  technology-based assignments to promote, 1:45
  transforming reading assignments into critical-thinking experiences and, 5:11
Cultural awareness lab, 2:5
Cultural competence case scenarios, for critical care nursing education, 5:47
Curriculum development, AACN recommendations for, 6:37

D

Deafness, education of profoundly deaf student and, 3:48
Development, in schools of nursing, 3:29
Disabilities, education of profoundly deaf student and, 3:48
Distance education
  integration of problem-based strategies in, 1:36
  through collaboration and e-mail, 6:8
Drug dosage calculations, anxiety, math self-efficacy, and gender effects on, 4:36
Dying clients, clinical strategies for teaching nursing students to care for, 3:7

E

Editorial thank you, 6:10
E-mail, support of off-site student through, 6:8
Epidemiology, teaching via poster sessions, 5:51
Essay tests, developing and scoring, 2:29
Evaluation
  of clinical performance, 6:15
  developing skills for, in students, 2:8
  of healthcare Web resources, 5:21
  of patients using alternative therapies, 6:19
  by students, on-line, interactive, 2:37
  of textbooks, Texas Textbook Evaluation Tool for, 2:23

F

Faculty
associate degree program closure and, 2:20
doctorally prepared, retooling as nurse practitioners, 1:9
faculty practice and, 1:42
intervention by, for substance abuse among nursing students, 2:16
new, mentoring, 1:48
teaching beginning courses, 4:4
Feminist pedagogical strategies, in research classroom, 2:10
Fund-raising, in schools of nursing, 3:29

G

Gaming, increasing student participation in postclinical conference through, 6:4
Gender, drug dosage calculations and, 4:36
Genetics, incorporating into nursing practice, 5:4
Graduate education
strengthening clinical reasoning in, 2:11
support of off-site student through collaboration and e-mail, 6:8

H

Health promotion
in community, 5:16
contract for, teaching critical thinking through, 4:42
HIV/AIDS, students' decisions to select HIV services for clinical experiences and, 3:35
Human sexuality, communication about, teaching to nurses and other healthcare providers, 5:27

I

Information for authors, 1:4, 3:4, 4:3, 5:59, 6:3
Instructional diagnosis, small-group, to facilitate course changes, 3:17
International education, transcultural nursing experience in the Philippines, 1:12
Internet
to enhance pharmacology courses, 5:5
evaluating healthcare resources, 5:21

J

Journey of discovery, 1:6

L

Leadership
clinical leadership experience for beginning nursing students and, 4:7
perceptions of leadership competence between interns and mentors in cooperative nurse internship and, 4:21
Learning resource center, benchmarking practices for, 4:16
Learning strategies, active, to teach case management, 5:52
Learning styles, 3:20

M

Managed care, clinical instruction for advanced practice nurses in, 4:15
Math self-efficacy, drug dosage calculations and, 4:36
Mental health nursing, independent clinical experiences in, 3:8
Mentoring
for new faculty, 1:48
perceptions of leadership competence between interns and mentors in cooperative nurse internship and, 4:21

N

Nurse-managed clinics, integrating teaching, research, and practice in, 3:25
Nurse practitioners, retooling doctorally prepared faculty as, 1:9
Nursing practice, incorporating genetics into, 5:4
Nursing schools, fund-raising in, 3:29
Nursing theories
creative teaching strategies for teaching, 3:40
poster presentation of, 1:6

O

Obstacles, student overcoming of, 4:48
Online programs, assessing effectiveness of, 1:5

P

Pathophysiology course, critical thinking in, 3:7
Patterns of knowing, integrating into undergraduate courses, 4:26
Pedagogical strategies, feminist, in research classroom, 2:10
Pediatric community health nursing, unique strategy for associate degree students, 1:16
Pharmacology courses, Internet to enhance, 5:5
Philippines, transcultural nursing experience in, 1:12
Population-based clinical projects, bridging community-based and public health concepts using, 6:28
Postclinical conference, increasing student participation through gaming, 6:4
Poster presentations
of nursing theory, 1:6
teaching epidemiology via, 5:51
Preceptors, for senior nursing students, 3:13
Problem-based learning
outcomes study of, 2:33
strategies for, integration in distance education, 1:36
Problem-solving, case studies for clinical instruction in, 5:42
Public health, population-based clinical projects and, 6:28
Pupillary response scale, bedside tool for, 3:6

Q

Qualitative research
integrating with quantitative methods, 6:24
teaching value of, 6:5
Quantitative research, integrating with qualitative methods, 6:24

R

Reading assignments, transforming into critical-thinking experiences, 5:11
Record keeping, anecdotal, 6:15
Research
feminist pedagogical strategies for teaching, 2:10
integrating quantitative and qualitative methods of, 6:24
integrating with teaching and practice, in nurse-managed clinic, 3:25
process of selecting research instruments and, 3:21
qualitative, teaching value of, 6:5
Role conceptualization, of RN-BSN students, 4:9
Role playing, teaching critical thinking with, 6:11
Rural areas
community health nursing strategies in migrant farm community, 1:23
health content in nursing education for, 5:26

S

Safety, students' perceived threats to, assessing, 1:31
Schools of nursing, fund-raising in, 3:29
Selected response test items, 5:9
Sensory deprivation, simulated, for awareness of aging, 3:5
Sexuality, communication about, teaching to nurses and other healthcare providers, 5:27
Simulations, as adjunct to clinical instruction, 5:37
Spelling competence, in abilities-based baccalaureate program, 3:5
Stressor identification exercise, for critical care environment, 2:6
Student congress strategy, 4:37
Student evaluations, by students, 2:37
Student suicides, 5:33
Substance abuse, among nursing students, faculty intervention for, 2:16
Suicide, among students, 5:33
Summer classes, teaching strategies for, 5:6

T

Teaching, integrating with research and practice, in nurse-managed clinic, 3:25
Teaching strategies
clinical, for teaching nursing students to care for dying clients, 3:7
feminist, in research classroom, 2:10
for generating interest in nursing as major, 1:25
for home health practice teaching, 4:13
for pediatric community health nursing for associate degree students, 1:16
problem-based, integration in distance education, 1:36
to resolve social, political, and health issues, 4:37
for summer classes, 5:6
for teaching nursing theories, 3:40
teleteaching as, 5:19
Teaching tools
for career teaching, 5:14
stressor identification exercise for critical care environment, 2:6
Technology-based assignments, to promote critical thinking, 1:45
Teleteaching, 5:19
Testing
completion items for, 6:6
developing and scoring essay tests and, 2:29
preparing testing blueprints from levels of course objectives, 4:11
selected response test items and, 5:9
Texas Textbook Evaluation Tool, 2:23
